

Fences for Solar Parks

Fencing Solutions Portfolio

Who are we?

Romania's leading fencing provider

Decorio is a Romanian family owned company, founded in 2005 and specialized in the importation, production, distribution and installation of fencing systems with a wide range of applications.

Corrosion protection represents a critical element of our fencing solutions, particularly given the diverse environmental challenges our systems must withstand. Advanced coating technologies ensure our fencing systems maintain their structural integrity and aesthetic appeal for years to come, even in the most demanding conditions.

founded 2005

For over two decades we have been promoting professional fencing systems at European standards of quality, safety and corrosion protection.

Quality is the cornerstone of everything we do. Each fencing system we promote undergoes meticulous evaluation to ensure it meets the highest standards. We work exclusively with manufacturers who share our strong commitment to excellence.

first park in 2012

Ever since 2012, Decorio has been a reliable partner for PV park developers in Romania and in the region, providing high-quality fencing solutions to over 50 parks.

Our experience

To name a few of our existing partners:

WALDEVAR ENERGY
CJR LUSO ENERGIE (Portugal)
AJ BRAND (Romania)
SUNOTEC (Bulgaria)
ALTER MAN ENGINEERING (Romania)
LSG BUILDING SOLUTIONS (Austria)
ELSACO ELECTRONIC (Romania)
SIMTEL TEAM ROMANIA
ENEVO ROMANIA
METCA (Greece)
and many more.

Our work in numbers:

Over **100 Solar Parks** secured with Decorio fences

Over **300.000 km** of fence installed for these Solar farms

Over **2700 MW** of production capacity secured

Projects in **7 countries**:

Provided fence for the first Energy Storage Station in Romania 2022 in Moara Vlăsiei.

Custom solutions

We will tailor the solution to your needs

With our products we have the possibility to assemble over 20 different and unique fencing solutions to meet the different needs and wants of our customers.

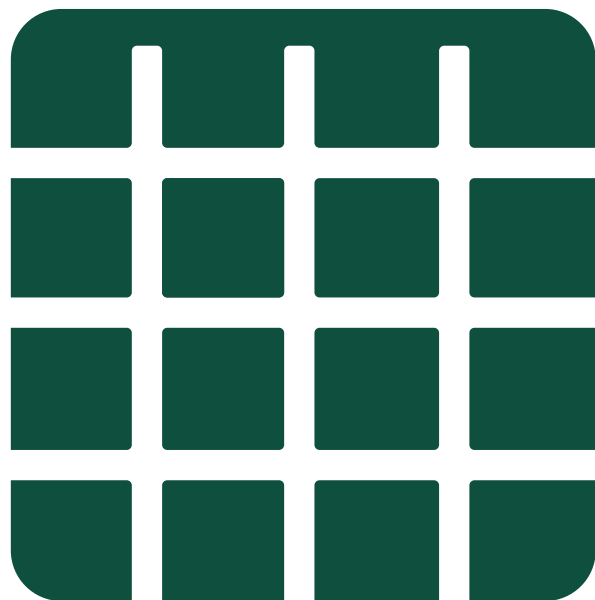

Our product line is unmatched both in terms of quality and of diversity. For example, we have 3D panels and chainlink nets with multiple heights and wire gauges, different types of posts and a wide range of security accessories with diverse mounting options.

Moreover, we have invented a new mounting for braceposts, and we have a unique way of bending our posts to mount the barbed wire. We can accommodate most of our clients special requests.

We have the right fencing solution for your PV park and we are confident that you will be happy for choosing us.
